Purpose

This policy is to manage and mitigate the risk of malware and viruses.

Scope

Malware and Antivirus Policy

Principle

Company devices have adequate protection of company information from the risk of malware or virus.

Approved Software

Only company approved and licenced software is to be installed on company equipment.

Malware and Antivirus Software

Malware and Antivirus Software must be installed on every device that can run it.

Education

Users are educated periodically as part of the user training and awareness process on phishing, safe use of the internet, software usage and what to do in the event of a virus or malware infection.

System Configurations

Email

Internet Proxy/Secure Web Gateway Configuration

File Integrity Checks

Host Intrusion Detection / Network Intrusion Detection

Policy Compliance
